

Good Afternoon,

Just a quick update on some other works in the area, firstly the parking situation on Padleigh Hill. This is in the South west area review with our parking TRO team, the review for this area usually sits within Quarter 1 of the year however there are some delays at present, meaning it could be slightly later in the year. But it will go ahead as part of that review, local ward councillors will be advised when the review starts.

Apart from that the signage on the entrance to Englishcombe signage (outside Holly House) is due to be updated however this will be part of next financial years Minor Works, I am aiming to have this work prepared and ready to order as soon as the next financial year starts under our new budget.

Hopefully the update is substantial, please let me know of any other issues.

Thanks and Regards,

Courtney Johnson | Technical Officer | Traffic Management | Bath and North East Somerset Council
