Welcome to the Parish Councils Airport Association

Who are We?

The PCAA is a membership organisation comprising of Parish and Town Councils in the South West of England. The PCAA works closely with other organisations, such as Bristol Airport Action Network (BAAN), to scrutinise activities by Bristol Airport Limited (BAL) and other operators which affect the surrounding Parishes and Towns. Current activities are focussed around BAL's intention to increase both annual passenger and flight numbers, and it's plans to expand the airport and surrounding infrastructure
